PLAY SUSPENSION PROCEDURES

1. Dangerous Situation

If a dangerous situation arises such that play has to be suspended, a prolonged note of a klaxon will sound to indicate immediate suspension of play. This may be repeated. All players and spectators **MUST** leave the course immediately. Balls in play should be marked and lifted.

2. Other Suspensions

If, in the opinion of the Committee, heavy rain or other condition makes the course unplayable, three short notes of a klaxon will sound to indicate suspension of play. Players may complete the play of the hole they are on but must not commence play of any other hole. Players should mark and lift their balls but remain on or near the hole being played until further advised. When play can be resumed a klaxon will sound two short blasts.

3. Effect of suspension of play

If play is or becomes impossible because of lightning, rain or any other reason, and play is abandoned for the day, the committee will in its absolute discretion decide how this will effect the regulation of the competition and advise participants accordingly.
